\$6,750.00

Product/Service	Description	Qty.	Unit Price	Total
Exterior Window Washing	Drone-assisted cleaning of approximately [[enter number of windows]] single pane windows at approximately [[enter height]] feet in height of accessible exterior glass using professional glass cleaner and purified water for a spot-free rinse. Cleaning does not include balcony windows. Hardwater stains, paint, silicone, construction debris, and inaccessible areas are excluded. Drone cleaning is compliant with all FAA laws and OSHA regulations. Ground areas will be closed beneath the drone during flight and areas of work will be marked with cones and construction tape. Lower windows may be cleaned with traditional cleaning methods. Windows must be closed and screens removed. Access to a water spigot is required. Access to an electrical outlet is requested. Parking is required for a truck and enclosed trailer.	500	\$10.00	\$5,000.00
Specialized Drone Mobilization & High-Access Setup	This covers transportation and deployment of the drone-cleaning system, hot-water equipment, hose and water-system setup, chemical preparation, preflight planning, safety-zone establishment, equipment inspections and breakdown.	1	\$500.00	\$500.00
Permit Fee	Municipal permit required for work zone access / street closure.	1	\$1,000.00	\$1,000.00
Water Supply / Hydrant Meter Allowance	If an adequate onsite water source is not provided, a temporary hydrant meter and permit will be obtained from [[enter official municipality or city]]. All meter rental, permit, deposit, water-usage, pickup, return, and related administrative costs will be billed to the customer.	1	\$250.00	\$250.00

				Not included
Full Exterior Building Soft Wash	Drone-assisted cleaning of all accessible exterior building surfaces. Priced by square footage according to volume and height. Service includes the exterior metal wall panels, columns, soffits, overhangs, trim, exterior doors, overhead doors, ledges, entrance areas and other accessible architectural surfaces. Cleaning will be performed using chemical, hot water and mild pressure, with appropriate spot treatment where needed to remove ordinary dirt, dust, cobwebs, bird residue and atmospheric buildup. Excludes roof areas that require anchor points. Pricing assumes maintenance-level cleaning. Rust removal, oxidation restoration, paint correction, graffiti removal, mineral staining and permanent discoloration are excluded.	50000	\$0.30	\$15,000.00
				Not included
Solar Panel Cleaning	Cleaning of all rooftop solar panel arrays shown in the provided site photographs. Priced by panel according to volume and height. Solar panels will be cleaned using purified water, low pressure and panel-safe cleaning methods. Service is intended to remove ordinary dirt, dust, pollen, bird residue and light organic buildup without using excessive pressure or harsh chemicals. Pricing is based on the solar arrays visible in the provided photographs. Additional panels or arrays not shown may require an adjustment to the final price.	300	\$15.00	\$4,500.00
				Not included
Credit Card Processing Fee (2.9%)	If using card please include processing fee shown here. Otherwise, send check payable to: Drone Wash, LLC 1635 W 13th Ave, Denver, CO 80204	1	\$195.75	\$195.75

Customer Contract:

All services are bound by our Customer Contract (attached as a PDF to this email/proposal). Submitting payment or a deposit constitutes agreement to the terms of this contract.

Timeline:

Work is expected to take approximately [[insert timeframe]], with an additional [[insert number]] days reserved for spot cleaning and potential weather disruptions. All work is weather-dependent. Services are typically performed between [[[6:00 a.m.]]] and [[[3:00 p.m.]]]

Cleaning Results:

Standard cleaning is not restoration, and results may vary based on material condition and age. Cleaning methods and solutions are selected by DRONEWASH+ unless specific products are requested in writing prior to service.

Pre-Existing Conditions: Damaged, aged, or loose paint, failing coatings, damaged or aged window seals, loose facade, or deteriorated materials may become more visible or worsen during cleaning. Building cleaning may cause windows to become dirty; we recommend washing the building before window cleaning. Standard terms of service apply.

Missed Windows, Complaints, or Customer Callbacks:

We are happy to resolve any issues; however, we require photo documentation as proof. Requests must be submitted within 5 business days of project completion.
